**CALL FOR PARTICIPATION:
SUMMER SCHOOL ON REMOTE SENSING METHODOLOGIES IN
AGRICULTURE**

SZERENCSS, 2-4 JULY, 2018

We are pleased to announce that the call for applications is now open for the Summer School on '**Remote Sensing methodologies in agriculture**' sponsored by Interreg Slovakia-Hungary (SKHU/1601/4.1/052).

The Summer School will take place in Szerencs, Hungary, from 2 to 4 July 2018 and is open to 20 Bachelor's, Master's students of geography and informatics.

The aim of summer school is to provide actual knowledge about remote sensing methodologies, which are applied in the agriculture. Students could obtain certification about participation in the summer school.

LOCATION AND TIME

The Summer School will take place in [Szerencs](#) and will last three teaching days, from 2 to 4 July 2018.

EXPECTED KNOWLEDGE

Basic knowledge in the field of informatics and/or geographical information system is required.

PARTICIPATION FEE AND ACCOMMODATION

There is no participation fee. For the term of summer school we can provide accommodation in [Hotel Meggyes](#) and daily two/three meal for the students.

APPLICATION PROCEDURE

Applicants should email the following materials to innoregio@uni-eszterhazy.hu until **25 June 2018**:

- Application form
