Dear Friend of Košice Children's Historical Railway,

Our civic association DŽK in cooperation with the partner ÉSZAKERDŐ Erdőgazdasági Zártkörűen Működő Részvénytársaság in Miskolc is implementing the international project "RailGate - Narrow Gauge Railways as Attractions and Gates to Nature". The main objective is to preserve, restore and develop the specific cultural heritage of historic narrow-gauge railways and to make them more attractive to visitors.

Thanks to this project, we managed to complete the building of the entrance station in Košice, restore the operation of the railway shunt "VPRED", reconstructed the historic locomotive and exhibit other as a monument called "Miskolc" and created the Audioguide application. At Miskolc, the Dorottya utca station was reconstructed, the replica of the historic Kassa wagon was restored, a promotional film was created, and a trilingual application was released. Both partners worked together to prepare a "Master plan" for both narrow-gauge railways.

The successful implementation of the project led us to the decision to apply for support from the Interreg cross-border project scheme also in the future.

The implementation of the project has come closer to its conclusion. We would like to present its results and evaluation at the final event of the whole project - a joint final conference on

29. NOVEMBER 2019, FRIDAY, TIME FROM 9:00 AM to 2:00 PM,

IN HOTEL BANKOV, DOLNY BANKOV 2, KOSICE.

Let us cordially invite you to this Closing conference, and at the same time allow you to book this day to attend the seminar.

We will send you more detailed information and program in advance of the conference.
