The project was implemented within the Interreg V-A Slovakia Hungary cross-border programme.

The main objective of the project is to increase the attractiveness of the border region by complex development of natural heritage areas, nature preservation and way of environmental interpretation.

Within the project BirdTour a visitor centre in Senné, a bike rent place, observation tower, new elements on the nature path and a campsite were established.

As a result of the project, we expect the increase of visitor numbers in the region, thanks to the developed and restored infrastructure and introduction of the new tourism services.
